Something for nothing? How about nothing for something?

Tunedeaf.com is a website devoted solely to giving away, free of charge, songs that are available on itunes music store at the normal price of 99¢ and up. All of these songs have one thing in common - they are composed entirely of utter silence. These songs are of varying length and are from different artists, yet they all lack any sound whatsoever and they are all available from itunes - for a fee.

We at tunedeaf.com believe that silence is an inherent natural state and defies ownership. We are therefore offering high quality recordings of these tracks in .wav format, which surpasses itunes' .mp4 format in audio fidelity.

A complete listing of the songs ready for download as well as links to itunes' versions can be found [here](#) or by clicking the Tunes tab above.

Thank you for choosing tunedeaf.
